# English Descriptions of the Basic Placements in the Vedic Horoscope Belonging to Hari Dasi

Below is a basic description of the main components of your chart. Memorizing these points about your chart will give you the ability to describe it to any astrologer say at a party, or over the phone. These are the main points that any Vedic Astrologer would need to know before discussing your chart. The zodiac is a belt of stars that surrounds the equator of the Earth and is divided into twelve major divisions of space each being 30 degrees of the total 360 degrees of space surrounding the Earth. At the time you were born, one of these twelve signs was visible in space on the Eastern Horizon from the place you were born. This "rising sign" sets up the basic structure of your chart and is very important. It is a physical fact that the exact zodiac sign specified in your Vedic chart *was actually rising* on the Eastern Horizon as seen from the city of your birth. Also, the positions of the planets given in your chart *were actually exactly where* the planets were at the time of your birth. Counting the zodiac signs *from your rising sign* sets up the *houses* of the chart. Each sign is *ruled* by one of the planets, who is then called *the lord* of that sign. Since each sign is in their order *one of the houses* then each planet becomes therefore *lord of a house*. Actually, most planets rule two houses each, except the Sun and the Moon, which rule only one each. Each house stands for different affairs of life, and the *lord* of the house carries that aspects of life with it wherever it has gone to in the chart. For example, the *lord of the 9th house* carries with it the ability to grant fortunes, so the house it goes to in any chart is greatly benefited. Therefore, if the lord of the 9th house is in your 2nd house, which rules your bank balance situation, then it grants an increase in fortune there, meaning it is a good placement for wealth. Now let's list out your basic placements:

You have Sagittarius rising. This is also called "your Ascendant" or "your rising sign", and in India it is called your "lagna" pronounced "lug-na". Since the signs always proceed in a set order from the rising sign, you thus have Capricorn in your 2nd house, Aquarius in your 3rd house, Pisces in your 4th house, Aries in your 5th house, Taurus in your 6th house, Gemini in your 7th house, Cancer in your 8th house, Leo in your 9th house, Virgo in your 10th house, Libra in your 11th house, and Scorpio in your 12th house.

The Sun is in the 3rd house, in Pisces.  
The Moon is in the 10th house, in Libra.  
Mars is in the 4th house, in Aries.  
Mercury is in the 3rd house, in Aries.  
Jupiter is in the 5th house, in Aries.  
Venus is in the 4th house, in Aries.  
Saturn is in the 10th house, in Libra.  
Rahu is in the 2nd house, in Capricorn.  
Ketu is in the 8th house, in Cancer.

Jupiter is lord of the 1st house and is in the 5th.  
Saturn is lord of the 2nd house and is in the 10th.  
Saturn is lord of the 3rd house and is in the 10th.  
Jupiter is lord of the 4th house and is in the 5th.  
Mars is lord of the 5th house and is in the 4th.  
Venus is lord of the 6th house and is in the 4th.  
Mercury is lord of the 7th house and is in the 3rd.  
Moon is lord of the 8th house and is in the 10th.  
Sun is lord of the 9th house and is in the 3rd.  
Mercury is lord of the 10th house and is in the 3rd.  
Venus is lord of the 11th house and is in the 4th.  
Mars is lord of the 12th house and is in the 4th.

This section gives the names of the 9 planets used in Vedic Astrology, along with the Ascendant, which an important point in your chart, much like a planet. The ascendent is that exact degree in the sign which was rising on the eastern horizon at the time of the event for which the chart was cast (usually a birth time, but not always). This chart shows the Ascendent and planets along with their exact degree locations in the signs they were in, as well as which of the 27 principle stars each was under, the lord of that star and the 1/4 division of that star. These attributes form the basis of your chart and are carefully reviewed by Vedic Astrologers.

This next section shows where the "Lords of the houses" have gone to. This is an important part of creating the readings for your chart. The houses stand for various parts of life. The planet that is the "Lord" of the sign in a particular house is responsible for delivering much of that house's effects. The house where the Lords reside receive that influence. One simple example: The 10th house has much to do with career, and the 2nd with food. If the lord of the 10th is in the 2nd, the person may be found in a restaurant or food related business. Each house stands for many things, so the combinations in this way are many.

This section deals with one aspect of the strengths of the planets known as Sthanabala, which means "Postional Strength". This is only one of six different factors contributing to the judgement of a planets strength in the horoscope. Therefore, just because a planet is either very good (exalted), or very bad (debilitated) here, it is not the only qualification by which the planet's effects are to be judged. However, this is one of the most immediately important factors for astrologers to use.

## How To Read The Janam Patri (Birth Chart) Print Out

**Rasi / Navamsa / Chandra**  
Numbers are Zodiac Signs

1. Aries 5. Leo 9. Sagittarius  
2. Taurus 6. Virgo 10. Capricorn  
3. Gemini 7. Libra 11. Aquarius  
4. Cancer 8. Scorpio 12. Pisces

**In the Rasi and Navamsa:** AC means Ascendant. The beginning of the birth chart. From this point going counter clockwise are the 12 houses (see arrows). For example, in this birth chart Moon is in the 4th house which is Capricorn, Jupiter is in the 8th house which is Taurus and is going retrograde/backwards - the house of death. Saturn is in the 10th house which is Cancer. Mars is in the 11th house which is Leo.

**The Nine Planets -** This table informs you of the 9 planets in Jyotish. The Zodiac Sign, the degrees and the Star or Nakshatra they occupy at the time of your birth. (R) = means the planet is going Retrograde or Backwards. Rahu & Ketu always go clockwise (retro motion).

**Chandra / Mind-** This is just as the Rasi and Navamsa. Similar principles applies. The only exception is that this is only used when one's time of birth is not known. In this we take the Moon to be the Ascendant. In this example, Moon is in the 1st house, Jupiter in the 5th and Saturn in the 7th house, Mars in the 8th house from the Moon. The numbers are Zodiac Signs. Planets go counter clock-wise.

### Vimshottari Dasha

Vimshottari is a Sanskrit word meaning 120, and Dasha means 'State of Life' or 'Timeline'. In it means a State of life of One hundred and twenty years.

Generally, the first column is called Maha-Dasha, a long period of time. The second column is called Bhukti, Antar-Dasha or Sub-period and the third column is called the date the Maha-Dasha or Bhukti started.

We can go four times deeper into time to know events of life on a daily basis also.

For example: Indira Gandhi was born in Sun Maha-Dasha and Venus Bhukti on 19/11/1917. Next example: Her Jupiter Maha-Dasha started on 05/12/1952.

Here the date format used is DD/MM/YYYY.

Every one minute away from the actual time of birth, plus or minus we lose or gain an average of five days.

**Karakas** means the doer of certain activities. This means that the karakas represent the influence of various things animate or inanimate, in our life - The Significators in Life: 1. Atma - Individual's Soul, 2. Amatya - Individual's Mind, 3. Bhatri - Brothers, 4. Matri - Mother, 5. Pitri - Father 6. Putra - Children, 7. Gnyati - Relatives 8. Dara - Spouse

## Hari Dasi

<b>Arishta Bhanga</b>	Because you have the strongly beneficial Jupiter in either a trine or angle house, there is cancellation of all evils indicated in the chart. This means that, when bad things come in the life, they will also automatically dissipate in strength, and the outcome will not be so bad. You are protected by divine grace and past good karma.	Jupiter is in a trine or Jupiter is in a kendra.
<b>Artistic Talents</b>	You are likely to have artistic inclinations or even pursue a career in art, especially if the involved planets are located in favourable houses.	Venus conjoins Saturn or Saturn is in 12 from Venus or Venus is aspected by Saturn.
<b>Bhagyavahana Yo</b>	You will have Bhagyavahana Yoga, general good fortune. This is a general reading, but it has power. This means overall very good karma, and it is not that common. A very good person in general, powerful.	The lord of the 4 is in 5, and the lord of the 5 is in 4.
<b>Bhratruvridhi</b>	In this combination, the third house, the lord of the third or Mars, the Karaka of the third are somewhat strong, which tends to bless life matters connected to that house, like younger siblings, communication abilities, higher education, courage, energy and prowess.	Mars is considered Strong in Shad Bala or the lord of the 3 is considered Strong in Shad Bala, and Mars is aspected by a benefic or the lord of the 3 is aspected by a benefic or 3 is aspected by a benefic.
<b>Chandra Mangala by Aspect</b>	In your chart, Mars is aspecting the Moon, which is a weak version of "Chandra Mangal" Yoga, where Mars and the Moon occupy the same constellation. This combination will definitely give your mind a passionate streak. You tend to be fiery and energized and sometimes impatient and quicktempered. How exactly this will effect your life depends on different other factors in the chart, like what other aspects the two involved planets receive, what houses they occupy, and whether Mars is a benefic or a malefic for the rising sign.	Moon is aspected by Mars.
<b>Conveyances</b>	The lord of the eleventh house of gains is well placed as it occupies the ninth, the fourth, or the eleventh house. The comforts of nice dwellings and fine vehicles shall be known to you in some way.	The lord of the 11 is in 4 or the lord of the 11 is in 9 or the lord of the 11 is in 11.
<b>Dhana</b>	This placement is a "dhana yoga", which means a combination of planetary influences known to create wealth. The more dhana yogas one has, the more likely they are to be wealthy in this life. Wealthy people usually have at least two, and sometimes 5 dhana yogas.	The lord of the 5 conjoins the lord of the 11.
<b>Durmukha</b>	There's a malefic in the second house, the Lord of the second conjoins a malefic or is debilitated. This is called "Durmukha" Yoga and there might be some problems or impediments regarding second house matters like speech, voice, throat, teeth, facial looks, wealth or education.	A malefic planet is in 2, and the lord of the 2 conjoins a malefic planet or the lord of the 2 DEB.
<b>Fortunes</b>	The Ascendant lord, Venus or Jupiter are located in a Kendra, which will bless your overall live to some degree. To have at least one good angular placement is of advantage for material life in general. If all three planets are in Kendras, then the Yoga would have an accordingly more strong and powerful effect. Fortune, wealth and other material blessings would be almost guaranteed throughout life.	The lord of the 1 is in a kendra or Venus is in a kendra or Jupiter is in a kendra.
<b>Karma Dharma Adhipati on 9 by Aspect</b>		9 is aspected by the lord of the 10, and 9 is aspected by the lord of the 9.
<b>Nishkapata</b>	"Nishkapata" Yoga is present in your chart. This means that you hate secrecy and hypocrisy. You prefer and value pure heartedness and homy, nicely decorated environment. You don't like to be surrounded by aggression, passion or any unsafe, malefic or chaotic mood. Benefics in the fourth house also mean, that you might have a nourishing, positive relationship with your mother.	Venus is in 4 or Jupiter is in 4 or Mercury is in 4 or the lord of the 4 is in 4, and is not Mars is the lord of the 4, and is not Saturn is the lord of the 4.

## HOW TO READ TRANSIT READINGS

The twelve houses in a person's birth chart represent the entire history of an individual. Each of the twelve houses signify certain important events and incidents of life.

Kindly note that there are two columns on the printout. The column on the right side is the column of the Ascendant, your real life experiences.

The column on the left side is the column of the Moon, the column of your thoughts and mind.

Every planet has its own duration to transit each house in your birth chart. For example, Sun transit takes 30 days, Moon 2.5 days, Mars 45 days, Mercury 27 days, Jupiter 1 year, Venus 24 days, Saturn 2.5 years, Rahu & Ketu 18 months each.

For example, Sun in Libra transits 1st house from your Moon impacts your personality during those dates that are marked as starting date on the left side and ends on the dates marked on the right side. This impact is on the mental level of the

individual.

Again, Sun in Libra transits 7th house from your Ascendant impacts your house of spouse, marriage or partnership. This impact is on the real life experience.

See below for detailed description on each house from one to twelve.

If you gave your correct time of birth, then you can read both columns. If not, then you should only read the column of the Moon, i.e. the column on the left side.

*Please note:* Planets in houses 1, 4, 7, 10 (from the Moon as well as from the Ascendant) are very powerful. Planets in the 5 and 9 are considered very auspicious for financial gain.
